UNESCO International Institute for Capacity Building in Africa

Strengthening teacher policy and development in Africa

September 6, 2018
UNESCO IICBA

– Established in 1999 as the only Category I institute in Africa

– Dedicated team of 25 people from 12 countries based in Addis Ababa

– Mandated to strengthen teacher policy and development in Africa
What we do

1. Capacity Development

Levels of Capacity Development

• Formulating teacher policies and social dialogue tools
• Defining qualifications, professional standards and professionalization of teaching
• Promoting teacher regulatory mechanisms and governance
• Supporting teacher training programs
• Promoting quality assurance
• Enhancing management and leadership
• Strengthening education and development (initial, continuous professional development and other professional support)
• Fostering professional networking

Policy  Institutions  Teachers
What we do

2. Partnerships and Advocacy

Promoting regional and national cooperation in teacher-related issues; Fostering dialogue on teachers and education.

3. Research and Development

Collecting, analyzing and generating quality, evidenced-based information.

Our recent publications include:

- *Teacher Motivation and Support Framework for Africa*
- *School Safety Manual: Tools for Teachers*
- *Transformative Pedagogy for Peace-Building: A Guide for Teachers*
Cross-cutting and Critical Issues

- Resilience and Prevention
- Refugees and Internally Displaced People
- Marginalized and Vulnerable Groups

- Global Citizenship Education (GCED)
- Prevention of Violent Extremism through Education (PVE-E)
- Peace-building and Anti-corruption
- Entrepreneurship
How we do it

**Continental level**
- **Research**: to produce quality research for evidenced-based policy and methodological support to policy makers

**Regional level**
- **Standard-Setting**: to organize standard-setting trainings for Regional Economic Communities and the African Union Commission for regional integration and harmonization

**Country level**
- **Technical assistance**: to design tailored programmes that meet countries’ and individual schools’ specific needs
Why we do it

According to UNESCO UIS (2016), the greatest teacher shortages are in Sub-Saharan Africa. The demand for teachers needed to achieve universal primary and secondary education by 2030 stands at about 17 million; about 6.3 million teachers for primary school (to fill new posts and replace teachers expected to leave) and 10.8 million for secondary schools.

Other challenges include gender imbalance of teachers, recruitment of unqualified/untrained teachers, teachers’ welfare, inappropriate curriculum and low levels of learning achievement.

"Any education system is only as good as its teachers"

"Teaching is the one profession that creates all other professions"
Where we do it

1. East Africa and Sahel Countries

We support teachers and policy makers to tackle educational issues in emergencies, conflicts and refugee settings, PVE-E and peace-building.

2. Burundi, Guinea, Lesotho, Mali, Mozambique, Niger, South Africa, and Uganda, Zambia and Zimbabwe

We provide guidelines and technical support to the governments to formulate holistic teacher policies and frameworks.

3. Ethiopia, Ghana, Kenya, Rwanda and Togo

We promote gender responsive education policy and practices and the use of ICTs in teacher training and teaching.
CONTINENTAL TEACHER MOBILITY PROTOCOL
Challenges

Despite the high unemployment rates in many countries, teaching positions remain vacant. As a result of the pressure to fill the vacant positions, many countries are recruiting teachers who lack the most basic training, or they are working in overcrowded classrooms (UIS, 2016).
Challenges

The problem of teacher shortage, recruiting international migrant teachers has been the norm for several decades and the distribution of qualified teachers is uneven across the continent.

While many countries in the continent experience serious shortages of teachers, overall and in specific subject areas; a number of African countries produce an apparent excess of teachers, whereby many teachers are unemployed.
RATIONALE FOR THE CONTINENTAL TEACHER MOBILITY PROTOCOL
The continental protocol addresses issues of

- Rights, benefits, remuneration, and welfare of the internationally recruited teacher
- Rights and Responsibilities of source countries
- Rights and responsibilities of host countries
The continental protocol will also contribute to

- Improving the teaching profession
- The development of a reliable teacher management information system,
- A continental teacher professional standard, qualification framework and addressing other teachers’ issues in CESA 16-25.
• The Continental Protocol assists the AU Member States in developing or fine-tuning national teacher recruitment and development policies and practices.

• To promote fair and improved recruitment and treatment of international migrant teachers in Africa.

• It supports the AU Continental Free Trade Area
• Presents continental standards / norms / guiding principles, considering all the current key issues in the African continent.

• Allows for the even distribution of teachers across the continent avoiding brain drain

• Supports the activities of the CESA 2016-2025 Teacher Development Cluster

• Takes into consideration the Rights, benefits, remuneration, and welfare of the internationally recruited teacher
APPROACH AND METHODOLOGY
EXISTING MECHANISMS THAT SUPPORT THE CTMP
**AU policy documents**
Agenda 2063, Continental Education Strategy for Africa
Continental Free Trade Area

**Commonwealth Teacher Mobility Protocol**
Protocol for the Recruitment of Commonwealth Teachers

**CTMP**

**Documents on cross-border teacher recruitment initiatives in Africa**

**The draft continental Mobility Protocol**
The ILO/UNESCO recommendation concerning the Status of Teachers (1966)

The UNESCO Recommendation concerning the Status of Higher Education Teaching Personnel (1997);

Initiatives for recognition of equivalences of teacher qualifications and professional registration of teachers across borders

CTMP

Major international reports on education, such as the Global Education Monitoring Reports
PACE Nairobi declaration and call for action paragraphs referencing common teacher qualification framework, refugees

CTMP

Addis convention on higher education

Relevant initiatives by IOM, UNHCR, UNICEF on forced migration of refugee teachers and other organizations working on this topic

UNESCO/ECOWAS (later ECCAS) teacher competency framework
